

POCKET DOOR HENDERSON

60kg

Wood

Interior

Sliding door solution that works with cavity walls for doors up to 60kg

Overview

Pocket Door is a unique sliding door solution whereby the sliding door disappears into the cavity wall. The system offers amazing benefits for environments where space is limited such as bathrooms, en suites, kitchens, utility rooms, walk in wardrobes disability access areas. Each Pocket Door kit comes with a pre-assembled aluminium track and header mechanism. For bi-parting doors, two kits can be used.

Features and Benefits

- Five kits available for various opening widths
- Each kit comes complete with the stud supports to create a cavity
- Simultaneous option available (order code SIM100)
- Soft Stop option available for doors up to 50kg (order code SOFT50)
- Soft stop option available for doors weighing up to 60kg when used with this system (Order code SOFT100)
- Compatible locksets available in gold or satin (see accessories)
- Overall wall thickness with 12.5mm boards is 120mm
