

SECUREFOLD 100 HENDERSON

100kg Wood Interior Exterior Aluminium

The ultimate folding door hardware solution for doors weighing up to 100kg

Overview

Securefold 100 offers the very best in external folding door hardware to help you securely open up your home to the outside world.

Catering for doors weighing up to 100kg, the system has been designed with R Loc - a clever ratchet system which enables installers to easily raise and lower a door. With all components made from marine grade 316 stainless steel, the system is extremely corrosion resistant.

The system comes in a range of stunning finishes including satin, chrome, black and gold meaning it can complement virtually any colour scheme.

This system can be enhanced even further with our Twinbolt locking system. One simple turn of a handle engages a 22mm throw to securely lock the doors at the top and bottom of the system.

Features and Benefits

- Ideal for external applications - all components are made from marine grade 316 stainless steel
- Features R-Loc - a clever ratchet system which enables installers to easily lower and raise the door
- Available in 4 stunning finishes - satin, black, gold and chrome
- Available with Twinbolt - a locking system which provides two points of locking using top and bottom throw rods
